

# Treatment Outcomes

## Alta Mira Recovery Programs Residential Drug & Alcohol Treatment

We are committed to providing the best possible care for our clients. Therefore, we partnered with Vista Research Group to track and measure the progress and efficacy of each client's treatment using validated research methodologies.

Information collected by Vista Research Group:

- Provides additional clinical input for weekly treatment planning meetings.
- Helps us make improvements and evolve our programming, which benefits our current and future clients.

This report summarizes data reported by clients discharged from Alta Mira during the period between June 15, 2018 and July 31, 2020. The Vista Research report was published on November 13, 2020.

As we continue our partnership with Vista Research Group, we will provide updated Treatment Outcomes as they become available.

Vista Research Group is an independent research group that helps treatment programs measure and improve their success rates. Alta Mira results are superior to Vista Research norms, and Vista norms are probably well above the average for the addiction treatment industry. The following results from the study were published Nov. 13, 2020.
