BEHAVIORAL HEALTH

Meaningful Lives. Infinite Possibilities.

Constellation Behavioral Health is dedicated to creating innovative treatment programs for adults with mental health, addiction, and co-occurring disorders. We were founded on the belief that excellent treatment outcomes require an intense focus on diagnosing and treating co-occurring disorders, and that a treatment program's success ultimately depends on a strong combination of best-in-class clinical and medical care. Our dedicated staff works together to deliver a shared, integrated system of care, providing quality, innovation, and collaborative care at each of our unique Joint Commission accredited facilities.

BrightQuest's groundbreaking program began over 40 years ago at our flagship San Diego location. Our therapeutic community serves men, women, and families from all over the world in need of complex psychiatric care. The BrightQuest model focuses on long-term and lasting change. The typical length of stay for our clients exceeds 12 months in a community-based setting, which supports individuals in developing the skills needed to take charge of their lives and reach the highest possible level of independence.
